

Meeting our vision with shared values

We will create a compelling community where every member actively seeks to contribute to the good of the community

We will be hopeful in the face of difficulty

We will believe we can achieve anything and work together to ensure everybody can achieve their most aspirational goals

We will demonstrate respect, integrity and honesty

We will teach a relevant and exciting curriculum that prepares children fully for their next phase of education and also for life

We will seek always to engage, enthuse and motivate pupils and each other

We will put the well being and achievement of our pupils at the heart of our decision making

We will seek to develop and empower our staff, encouraging creativity, innovation and the freedom to succeed while valuing consistency and protecting a good work life balance

We will challenge and tackle any discriminatory or unsafe behaviour and actively promote a healthy, safe and tolerant school community
